7. Existing Scoreboard
8. Existing Benches, Typ.
9. New Trees
10. Existing Trees
11. Existing Dek Hockey
12. Existing Bleachers

# Community Feedback:

"Please just make sure that it's inclusive of all kids-not just neurotypical kids, or kids with visible disabilities-but also kids on the spectrum whose disabilities cannot be seen. Sometimes in an effort to make things look modern and cool, these kids get left behind."

"Please include areas for the littlest kids SEPARATED from the play areas for the larger kids. Too often the bigger kids play too rough and aren't able/don't take into consideration the littler kids playing resulting in injury."

"Please don't cut the trees. They provide so much shade for the kids (which is a big reason why we go to this park since it's not so hot) and for adults to sit under while kids play. We love the variety of ages that can play there as well with older kids on one play set and younger kids on the other."

# Playground Renderings: Ages 2-5

# Playground Renderings: Ages 5-12

# Playground Renderings: Swings
